Professionally trained as a family therapist and taught in universities; I immigrated from Hong Kong in 1988 and worked in Richmond Health Department for over 22 years. I was elected as Richmond School Trustee between 1999-2011 and City Councillor since 2011 to date. I strongly advocate for open and transparent government, civic engagement, public consultation, balanced development and racial/cultural harmony.

My motto is 'Policy above politics'

My past records included voting to protect farmland, ban single-use plastics, increase affordable housing supply, densify industrial land supply, expedite the improvement of the dykes, restore the First Nations bunkhouse, rebuild Steveston Community Centre, prioritize stopping hate crime, and cut back property tax increases.

If re-elected, I will continue supporting local small businesses and find creative ways to address the housing crisis, including the 'rent-to-own' programs. I will also commit to addressing climate change challenges and promoting intercultural harmony.

Candidate for Councillor

Alexa LOO

ONE Richmond

As a lifelong competitor and two-time Olympian, I am always looking for improvement. We have a great community with wonderful facilities, and people who care about Richmond and each other. We can be even better. I commit to improving Indigenous relations and improving accessibility.

As a CPA, CA, I'm always keeping my eye on the bottom line to keep taxes low, while delivering programs and growing our public spaces.

As a mother and a daughter, safety of our children and our parents is always top of mind: ensuring that our police and fire have the right resources to respond to calls appropriately, and ensuring our people, homes, businesses and heritage are protected from floods. As a two term Councillor, I have consistently voted for the programs and voted for the budgets that actually pay for the staff, equipment, training and raising of the dikes that will keep us all safe.

Candidate for Councillor

Bill McNULTY

ONE Richmond

I have been honored to serve Richmond for over two decades. During that time, our city has grown and prospered, with enhanced livability, quality of life, sustainability and prosperity.

My proven track record of fiscal accountability to keep taxes low and control spending continues, while still providing increased quality services such as libraries, childcare spaces, community centers and parks.

I have led and supported efforts to expand affordable housing for people of all ages, as well as preserving our extensive agricultural lands.

Safety remains paramount as we address hate crimes and intolerance, and I continue to advocate for a community police station in Hamilton. Impacts of climate change, greenhouse gases, and robust fire protection and policing are priorities.

My experience, leadership, work ethic and commitment will benefit Richmond now and into the future.

I ask for your trust and support to continue working on your behalf.

Candidate for Councillor

Dennis PAGE

My number one goal as councillor will be to see mixed-income communities return to Richmond – starting with the downtown core.

Families wanting to save for a home need affordable options in order to make their goals a reality.

Young professionals, college graduates, and those starting careers deserve places that can meet their needs—providing options for shopping, socializing, and business opportunities.

Seniors and those on fixed incomes need to be close to the services and amenities they require.

The added benefit to having all these groups live together is that they provide a wide-range of needs that creates an excellent opportunity for businesses of all types.

It is entirely possibly for this to be a reality – I grew up in Richmond, and this is the way it was.

I also believe Richmond should strive to rid itself of exploitive and criminal elements through strong bylaws, enforcement, and police funding.

Candidate for Councillor

Keefer PELECH

Richmond Citizens (RCA)

Keefer Pelech was born and raised in Richmond and has been involved in advocacy and political organizing in the city since 2015. He was active in the push for Temporary Modular Housing in Richmond and the fight to save Farmland from speculation and over-development. Prior to working for the provincial government, Keefer delivered educational programs to youth at the Richmond Nature Park, and worked at West Richmond Community Centre's out-of-school care program.

Keefer understands how our community's issues are connected—affordable housing, school enrolment, access to services such as childcare and seniors' resources, and how we plan sustainable climate-resilient neighbourhoods. Keefer believes that it is the City's responsibility to ensure affordable housing is available so that we can all call Richmond home—from young families, to new teachers and nurses, and long-time senior residents on a fixed income. Let's work together to build a community where we are all welcome.

In Council decision-making, she seeks to find the truth, preserve moral family values, and uphold tax dollar accountability.

Jasmine is a born and raised Richmond resident, and grew up in East Cambie. While completing her post-secondary studies at SFU, Jasmine worked in roles supporting children and youth. She mentored youth in the Richmond Green Ambassadors program, and supported children of all abilities in the Cambie Out-of-School Care program.

**Kay
HALE**

Lived in Richmond B.C since 1984. MBA degree in Business Administration from U.K. My children attended school here in Richmond and now my grandchildren.

Multilingual; 1) English, 2) Cantonese, 3) Hindi, 4) Punjabi 5) Urdu. — I often engage in discussion with parents, teachers and respective School Principles alike. Our School System in Richmond is good but there's room for improvement!!

- 1) SOGI & SOGI-123 – It's parent's rights to have discussion at home, and District's responsibility to educate students using the filter of approved curricula
- 2) Enhance Mental Health – It's escalating in our youth, support for Students with ADHD symptoms is lacking.
- 3) Diversity and Inclusion- teachers should have the ability to differentiate instruction and be proficient in scaffolding English language learners.

I will advocate for funds to enable teachers to teach and students to learn.
